

MachTM 9e

Coin sorter/counter

The Mach 9e is a high speed, heavy duty coin sorter, specifically designed for medium to high volume processing centers where throughput and reliability is critical. Perfect for financial processing centers, vending, transportation companies and gaming houses, the Mach 9e delivers unrivalled performance, accuracy and productivity.

Mach 9e

The Mach™ 9e is engineered for organizations that require fast, accurate, and reliable high-volume coin processing. Designed for continuous operation, it automates coin counting and sorting to increase throughput, reduce manual handling, and improve overall operational efficiency.

Powered by a patented sorting system, the Mach™ 9e delivers smooth, uninterrupted performance while minimizing jams and maintaining exceptional accuracy. An ergonomic workstation, quick-release bagging spouts, and an intuitive full-colour display simplify daily operation and help maximize productivity.

Ideal for financial processing centres, armoured carriers, casinos, transportation companies, and vending operations, the Mach™ 9e provides the performance and reliability needed to keep high-volume coin processing running efficiently.

Processing Speed	6000 coins per minute (0.7" / 18 mm)
Sorting Capability	9
Inspection pan	Up To 10,000 coins
Power supply	90 – 264V AC, 50/60 Hz
Power consumption	720W in use / 30W on standby
Dimensions (H x W x D)	41" x 27" x 28.7" (1041 x 685 x 731mm)
Weight	198.5lbs. / 90 kg
Languages	English, German, Spanish, French, Italian
