

Mach[®] 3

COIN SORTER.

Efficient coin processing.

The Mach™ 3 Coin Counter and Sorter delivers fast, accurate, and efficient coin processing for businesses requiring reliable daily coin handling. Capable of counting and sorting up to 1,500 coins per minute, the Mach™ 3 significantly reduces processing time while improving accuracy and operational efficiency.

Designed with convenience in mind, its compact and portable design allows for easy storage and transportation between locations, making it an ideal solution for a wide range of coin processing environments.

Mach[®] 3

The Glory Mach™ 3 is a compact, high-speed coin counter and sorter designed to improve productivity in busy cash handling environments. Processing up to 1,500 coins per minute, it offers flexible output options including coin drawers, bags, and paper coin rolls to suit a variety of operational needs.

With an intuitive LCD interface, simple controls, and Glory's patented jam-resistant design, the Mach™ 3 delivers reliable, accurate performance while minimizing operator intervention and downtime.

Its lightweight, portable design makes it easy to move between locations, providing an efficient coin processing solution wherever it's needed.
